

Risk assessment

Name of activity, event, and location	Camping Field Toilets and Shower Block	Date of risk assessment	24.9.24	Name of person doing this risk assessment	Jack Mee and Peter Metcalf
		Date of next review	24.9. 2026 - 24 months from assessment date or where significant change has occurred		

What could go wrong? What hazard have you identified? What are the risks from it?	Who is at risk?	What are you going to do about it? How are the risks already controlled? What extra controls are needed? How will they be communicated to young people and adults and remain inclusive to all needs?	Review & revise What has changed that needs to be thought about and controlled?
Floors can be slippery when wet	All Users	-Warning signs/cones used when floors have been cleaned -Warning sign in case of wet weather	
Risk of scalds from hot water in wash basins	All Users	-Hot Water' signage in place	
Risk of slips and trips from raised step at entrance	All Users	-Users asked to use 'squeegies' provided to remove excess water

Risk of trips and fall on entrance steps to shower	All users	-Handrails provided -'Mind steps' Signage in place	
Risk of injury from electrical supply switch box located in the showers	All users	-Box is contained in a cupboard which is kept locked and opened by authorised persons only	

don't forget, as part of your programme planning, you should have contingency activities in reserve just in case you can't do what was planned or you need to stop half way through. Make sure this is shared with those involved, so everyone knows how to respond. You should have risk assessed contingency activities prior to them taking place and communicated key information to those involved as with all activities.

You can find more information in the Safety checklist for leaders and at scouts.org.uk/safety
